Re: Hazardous Waste Storage/Treatment Permit
Hydrocarbon Recyclers, Incorporated of Wichita
Wichita, Kansas
EPA I.D. Number KSD007246846

Dear Sir/Madam:

Please find enclosed a copy of the public notice which announces the U.S. Environmental Protection Agency (EPA) and the Kansas Department of Health and Environment's (KDHE) intent to jointly issue a Resource Conservation and Recovery Act (RCRA) hazardous waste storage and treatment permit to the Hydrocarbon Recyclers, Incorporated of Wichita facility located at 2549 N. New York, Wichita, Kansas.

Please announce the enclosed public notice one (1) time only during the daytime hours on or before September 1, 1994 on both KFDI AM and FM. The attached Certification of Radio Broadcast forms should be completed and returned.

It is imperative that the following purchase authorization number be included on the billing in order to expedite payment: P.A. # 08-247. Billing and certification of radio broadcast forms should be mailed to:

Brian Busby
Kansas Department of Health and Environment
Building 740, Forbes Field
Topeka, Kansas 66620-0001

PUBLIC NOTICE OF PROPOSED PERMIT ACTION

The Kansas Department of Health and Environment (KDHE), and the U.S. Environmental Protection Agency (EPA) Region VII have received a Resource Conservation and Recovery Act (RCRA) hazardous waste Part B permit application from Hydrocarbon Recyclers, Incorporated of Wichita, the operator and Hydrocarbon Recyclers, Incorporated, the owner of a facility located at 2549 North New York, Wichita, Kansas. The KDHE and EPA are providing notice of their intent to issue a joint hazardous waste storage and treatment permit to the operator and owner of the facility.

The facility obtained interim status to store and treat hazardous waste in November 1980 and was assigned EPA identification number KSD007246846. The facility was formerly known as Reid Supply, Inc. and Conservation Services, Inc. prior to the acquisition by Hydrocarbon Recyclers, Incorporated. The previous owner of the facility is a potentially responsible party (PRP) at the 29th and Meade Superfund site and is involved in site investigation under a consent agreement with the department.

In October 1985, the State of Kansas received final authorization from EPA to implement its own hazardous waste management program in lieu of the federal program except for the portions covered by the Hazardous and Solid Waste Amendments of 1984 (HSWA). The KDHE portion of the permit (Part I) will be issued under the authority of Kansas Statutes Annotated 65-3431(i) and 65-3431(s) and the EPA portion of the permit (Part II) will be issued under the authority of sections 3002(b), 3004(u) and (v), and 3005 of the Resource Conservation and Recovery Act (RCRA).

Part I of the permit will allow the operator and/or owner to store and/or treat hazardous waste in containers and tanks from on-site and off-site sources. The facility will store and/or treat 325,490 gallons of hazardous waste in twenty seven (27) container management units and 137,987 gallons of hazardous waste in twenty two (22) tanks located in seven (7) existing buildings. The Subpart X units consist of a shredder, granulator, drum scraper, dryer, drum washer and dispersing unit. The materials managed at the facility will include ignitable, corrosive, reactive, toxic, and listed liquid or solid hazardous waste destined for on-site management, recycling as waste fuel, wastewater management, solvent recovery or transport off-site for additional management. The storage and/or treatment container management units and tanks have secondary containment and comply with 40 CFR Part 264 Subparts I and J. The EPA portion (Part II) of the joint permit will address the requirements of HSWA.

A copy of the administrative record which includes the draft permit, Part B permit application and all information pertaining to this permit action is available for public review on September 1, 1994 through October 17, 1994 during normal business hours, 8:00 a.m. to 4:30 p.m., Monday through Friday at the following locations:

Kansas Department of Health and Environment
Southcentral District Office
130 S. Market, 6th Floor
Wichita, Kansas 67202
Contact: Mark Bradbury
(316) 337-6020

Kansas Department of Health and Environment
Hazardous Waste Section
Building 740, Forbes Field
Topeka, Kansas 66620
Contact: John W. Mitchell
(913) 296-1608

U.S. Environmental Protection Agency
Region VII - RCRA Branch
726 Minnesota Avenue
Kansas City, Kansas 66101
Contact: Robert Stewart
(913) 551-7654

Anyone wishing to comment on the draft permit should submit written comments postmarked no later than October 17, 1994 to John W. Mitchell (KDHE) or Robert Stewart (EPA) at the above addresses.

A public hearing will be held in conjunction with the public comment period. The public hearing has been scheduled on October 5, 1994 at 7:00 p.m. in the Wichita City Hall Chambers, 455 North Main, Wichita, Kansas. After consideration of all comments received, the Secretary and Regional Administrator will make a final permit decision. Notice will be given to the applicant, all persons who submitted written comments, those who commented at the public hearing, and those who requested notice of the final permit decision. If none of the comments received during the public comment period result in revision(s) to the draft permit, the permit will become effective immediately upon its issuance. If comments received during the public comment period result in revision(s), the permit will become effective thirty (30) days after service of notice of the final decision or at a later date, if a review is requested under 40 CFR 124.19.

Re: Hazardous Waste Storage/Treatment Permit
Hydrocarbon Recyclers, Incorporated of Wichita
Wichita, Kansas
EPA I.D. Number KSD007246846

Dear Mr. Hensch:

The U.S. Environmental Protection Agency (EPA) and the Kansas Department of Health and Environment (KDHE) have made a tentative decision to jointly issue a hazardous waste storage and treatment permit to the Hydrocarbon Recyclers, Incorporated of Wichita facility located at 2549 N. New York, Wichita, Kansas.

The public comment period will start on September 1, 1994 and end on October 17, 1994. On or prior to September 1, 1994, a public notice announcing this permit action will be published in the Wichita Eagle and be broadcasted over radio stations KFDI AM and FM. Enclosed for your information are copies of the public notices, fact sheet and draft permit.

A public hearing will be held on October 5, 1994 at 7:00 pm in the Wichita City Hall Chambers, 455 North Main, Wichita, Kansas. Comments must be in writing and postmarked no later than October 17, 1994. They should be directed to Mr. John W. Mitchell, Hazardous Waste Section, KDHE, Topeka, Kansas 66620 and/or Mr. Robert Stewart, RCRA Branch, EPA Region VII, Kansas City, Kansas 66101.

The KDHE Secretary and EPA Regional Administrator will make a final decision to issue or deny the permit after consideration of all comments received during the public hearing and comment period.

Mr. Donald A. Hensch

Wichita, Kansas
EPA I.D. Number KSD007246846

Dear Mr. Bartley:

Enclosed is a copy of Volume 1 (KDHE portion) of the administrative record for the referenced facility's hazardous waste storage and treatment permit. EPA will need to provide a copy of Volume 2 (EPA HSWA portion) of the administrative record and your copy of the facility's Part B permit application in order to make the administrative record complete.

Please display the administrative record for public review during the public comment period of September 1, 1994 through October 17, 1994. A public hearing has been scheduled on October 5, 1994 at 7:00 p.m. in the Wichita City Hall chambers.

Thank you in advance for your cooperation in displaying the administrative record. If you have any questions, please contact me at the number listed below.

Sincerely,
